3-YEAR LIMITED WARRANTY

For an extra measure of reliability and assurance

CRAFTED IN AMERICA
AQUATIC

When you choose "Made in America," you're not only supporting hard-working Americans and helping strengthen our economy, but you're also benefiting from higher standards of workmanship and a commitment to building a better product.

The perfect fit for your space and style

The Builders' Choice Elements collection includes three different configurations, in sizes ranging from 57"-72", assuring there's a model to integrate beautifully with your bath space.

Drop-in

This versatile style includes a self-rimming edge that can be seen above the tub deck. Tubs can be installed in a raised platform or set below floor level.

Recessed/Alcove

With a single finished apron, an above-format bathtub is intended for installation in a recessed area, with walls on three sides.

Corner

Ideal for two-person bathing, a corner-format bathtub has a triangular or crescent-shaped design that fits into the nook of a room.

Choose to get the most from your bath experience

An optional inline heater is available to keep bath water as warm as you want, for as long as you want.

WHAT MAKES AN AQUATIC BATH GREAT?

IT'S MORE OF A QUESTION OF 'WHO?'

Behind every product is an expert—an engineer, a designer, a machine operator—someone who is passionate about making bathing a comfortable and enjoyable experience for everyone.

So when you choose Aquatic, you're choosing more than a shower, tub or other bath product.

You're choosing people who are the best at their craft. And that means you can relax knowing you're getting the best quality, value and options for your specific project.
